HOT AND NEW

Accessories from Township Patterns

Date 14 December 2010

Add a touch of Mzansi flavour to your outfit with an eye-catching fashion accessory by **Township Patterns**.

The company has just launched their first collection of ready-to-wear fashion accessories, which includes fun, brightly coloured harem pants, shorts, skirts, dresses, ballet pumps and scarves. Their men's range consists of shirts and boxer shorts.

All items are made from the distinctive Township Patterns fabric range, which is inspired by the colours and patterns that characterise the informal settlements of South Africa.

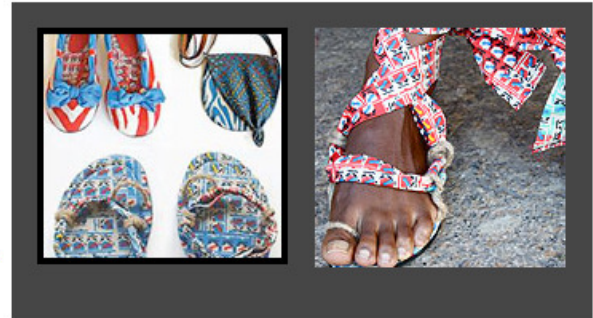

The accessories are available from the new **Township Boutique**, which opened its doors in the Cape Quarter Lifestyle Village in Greenpoint this week.

More good news is that the The Gatehouse at Mavromac February will soon be distributing the Township Patterns fabric range.
